

Markdown Viewer

This is an example of Textual's `MarkdownViewer` widget.

Features

Markdown syntax and extensions are supported.

- Typography *emphasis*, **strong**, `inline code` etc.
- Headers
- Lists (bullet and ordered)
- Syntax highlighted code blocks
- Tables!

Tables

Tables are displayed in a `DataTable` widget.

Name	Type	Default	Description
<code>show_header</code>	<code>bool</code>	<code>True</code>	Show the table header
<code>fixed_rows</code>	<code>int</code>	<code>0</code>	Number of fixed rows
<code>fixed_columns</code>	<code>int</code>	<code>0</code>	Number of fixed columns
<code>zebra_stripes</code>	<code>bool</code>	<code>False</code>	Display alternating colors on rows
<code>header_height</code>	<code>int</code>	<code>1</code>	Height of header row
<code>show_cursor</code>	<code>bool</code>	<code>True</code>	Show a cell cursor

Code Blocks

Code blocks are syntax highlighted.

```
class ListViewExample(App):
    def compose(self) -> ComposeResult:
        yield ListView(
            ListItem(Label("One")),
            ListItem(Label("Two")),
            ListItem(Label("Three")),
        )
        yield Footer()
```

Litany Against Fear

I must not fear. Fear is the mind-killer. Fear is the little-death that brings total obliteration. I will face my fear. I will permit it to pass over me and through me. And when it has gone past, I will turn the inner eye to see its path. Where the fear has gone there will be nothing. Only I will remain.
